**GENERAL DVDs**

**D1496  Addictions and Corrections** (DVD, 45, 90 minutes)
Part One. Dr. Gabor Maté, while working for two decades on Vancouver’s Downtown East Side, saw how the purely medical model of addiction theory fails to take into account the effects of trauma and the biopsychosocial conditions of human beings as they live in relationship with others. He argues that current Canadian social and criminal policy exacerbate and entrench addiction, criminal behaviour and human suffering. He calls for social policy, medical training and criminal justice to become more fully aligned with the current science and understanding of addiction and healing.
Part Two. Dr. Gabor Maté is joined by panelists Ray Corrado, Tim Veresh, and Sav Bains, to continue the dialogue on addictions and corrections. Underlying the discussion of the treatment of addictions in the prison environment is an awareness that new and impending crime legislation will result in increased federal and provincial prison populations. (Heartspeak Productions) (HV 8836.5 A335 2011)

**D1054  Detecting Substance Abuse** (DVD, 27 minutes)
The purpose of this video and training guide is to warn corrections professionals about the dangers of substance abuse, both alcohol and other drugs, and also to let anyone with a problem know that they should seek help before it is too late. (Lockup USA) (HV 8763 D487 1997)

**D072  Drug Awareness Identification** (DVD, 28 minutes)
This program demonstrates to correctional officers the need to be able to identify drugs and understand symptoms of illegal drug use. This knowledge, coupled with an understanding of how drugs are smuggled into a facility is the best assurance that a correctional institution will be drug free. (Lockup USA) (HV 8836.5 D283 1993)
